

# Predicting H1N1 Vaccination Status:

## Improving Public Health Campaigns

by: Isabella Siele

# Outline

**Public Health Perspective**

**Goals**

**Data**

**Methods**

**Results**

**Recommendations**

**Next Steps**

# Public Health

## Perspective

- The personal factors that affect vaccination behaviour
- Understanding vaccination patterns from past pandemics can improve future vaccination
- Decrease outbreaks

# GOALS

- **Build an accurate H1N1 vaccination prediction model**
- **Find the most important demographic, behavioral, and health features affecting vaccination status**

---

# The Data

**The National Flu Survey  
(NHFS, 2009)**

**26,000  
Respondents**

**79% Did not Get the  
Vaccine**

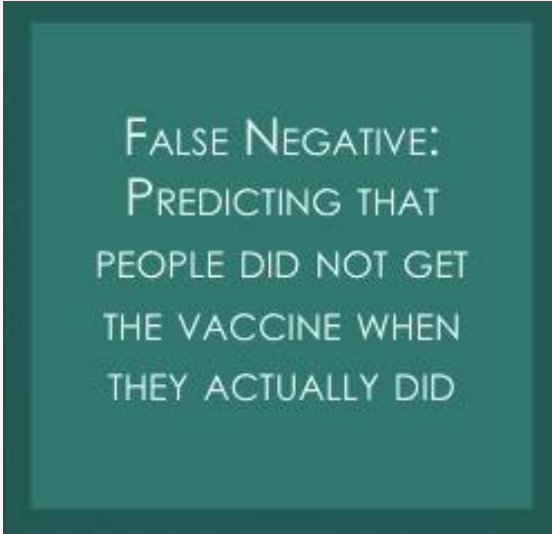

**35 Unique  
Factors**

# Modeling Context

FALSE POSITIVE:  
PREDICTING THAT  
PEOPLE GOT THE  
VACCINE WHEN  
THEY ACTUALLY DID  
NOT

Big Problem

FALSE NEGATIVE:  
PREDICTING THAT  
PEOPLE DID NOT GET  
THE VACCINE WHEN  
THEY ACTUALLY DID

Not a Big Problem

# Model & Results

Logistic  
Regression

77% Accuracy

Confusion Matrix - Baseline Logistic Regression

# Top 4 Important Features

**Doctor Recommendation  
of H1N1 Vaccine**

**Health Insurance  
Access**

**Opinion on H1N1 Vaccine  
Effectiveness**

**Opinion on H1N1 Risk**

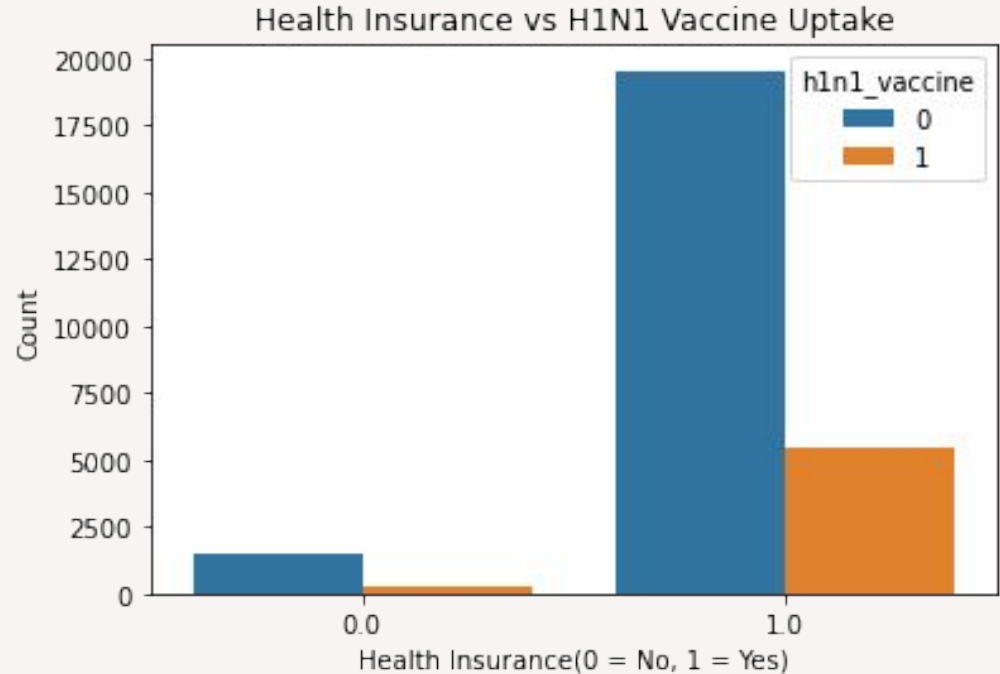

# Data Visualizations: Doctor Recommendation

# Data

## Visualizations:

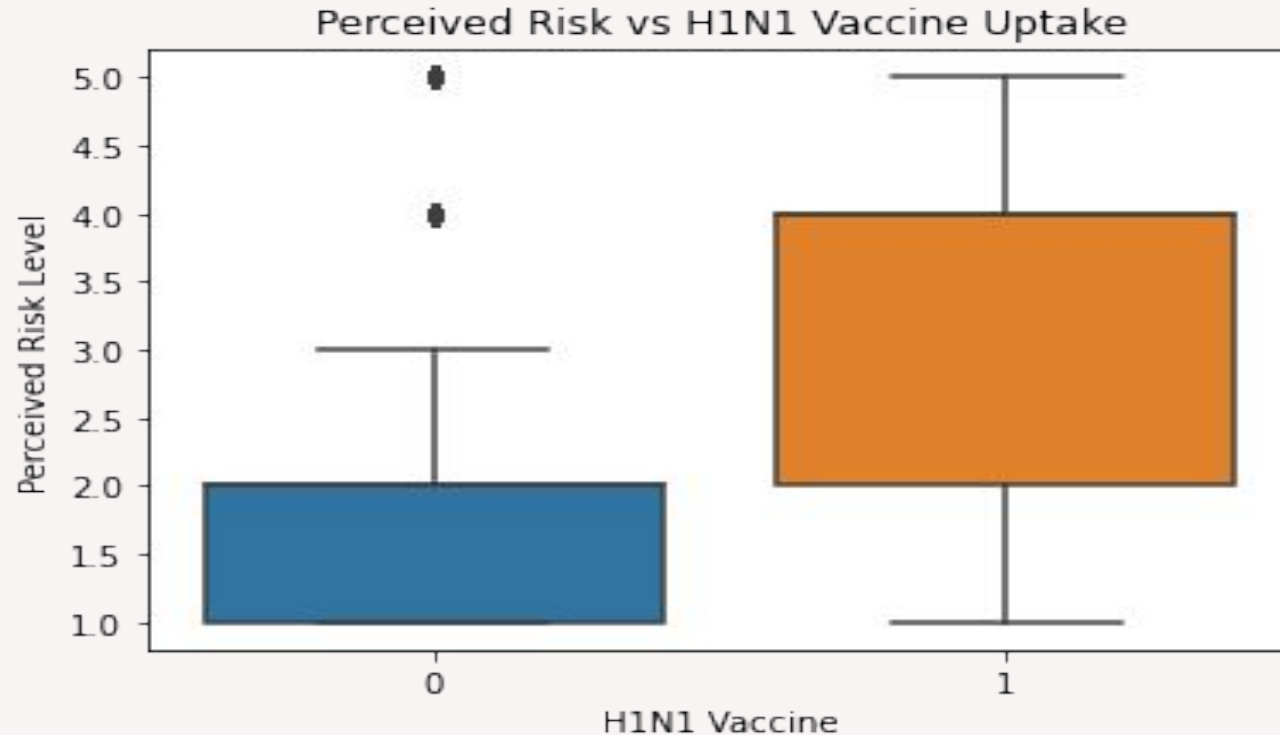

### Health Insurance

# Data Visualizations: Belief in H1N1 Vaccine Effectiveness

## Data Visualizations: H1N1 Risk Perception

# Recommendations

**Doctor  
Recommendations**

**Reduce Perceived  
Barriers & Risks**

**Educational  
Outreach to Address  
Misconceptions**

# Connecting with Stakeholder Needs:

- Supports data-driven vaccination strategies
- Identifies groups less likely to vaccinate
- Helps target outreach and reduce vaccine hesitancy
- Informs efficient use of public health resources

# Next Steps

**What to do**

---

## Recent Survey Data

Diverse and recent data

---

## More Feature Engineering

Improve Accuracy

---

## Seasonal Vaccine Prediction

Enhance and Generalize Model

---

# THANK YOU
